11. Overall Comments to Survey

5 responses

Out of all the projects our center has been involved in the ACCG process this one was the most responsive in developing project elements that reflected the input of ACCG members.

Need continued support for more implementation within Hemlock footprint.

Calaveras Ranger District should be more aggressive in generating revenue from stewardship projects. Avoiding lawsuits is only one measure of success. pace and scale is another measure.

Excellent example of collaborative planning by the FS, which actively engaged the ACCG in project development.

project could have been improved in finding a way to arrive at the selected alternative in a shorter timeframe
