

## **Amador Calaveras Consensus Group (ACCG)**

### *ACCG Project Endorsement Guidelines*

#### **Guidelines for Communicating ACCG Project Endorsement**

If an entity wishes to use the ACCG collaborative's name for a grant application:

- Present the project to the ACCG following the Project Development & Approval Process (link to [flowchart](#)).
- If the ACCG members affirmatively support the project, the project has the endorsement of the ACCG.
- When a grant application describes a project as “within the ACCG landscape,” it is important to specify whether the project was put forth for the ACCG's consensus support.

#### **Sample Grant Language**

If the project has been brought before the ACCG and received consensus support and the grant applicant chooses to include mention of ACCG in the grant application:

- The proposed project has been reviewed by and received consensus support from the Amador Calaveras Consensus Group.

If a project has not been brought before the ACCG and received consensus support and the grant applicant chooses to include mention of the ACCG in the grant application:

- The proposed project is within the Amador Calaveras Consensus Group (ACCG) project area. However, the proposed project has not been reviewed or received consensus support from the ACCG collaborative.
