Group got a recap of the Pyrosilviculture Shared Vision, adopted in August 2021, that was developed by the Pyrosilviculture Ad Hoc group. The group discussed how the vision might be incorporated into the Phase 2 project and determined that the first steps would be to (1) send an email to the Phase 2 core team from the Ad Hoc providing a copy of the shared vision and potential next steps, and then (2) bring up the shared vision at the August Phase 2 Stakeholder meeting.
