Amador Calaveras Consensus Group (ACCG)

Planning Work Group Zoom Meeting Wed. Oct. 23rd, 2024, 9:00 a.m. – 12:00 p.m.

Join Zoom Meeting

Meeting ID: 813 6606 2390 Passcode: 376175

Dial in: 669-444-9171

MEETING AGENDA

Facilitator: Megan Layhee

Time	Item	Materials
9:00	Review meeting agenda & other housekeeping 1. Modifications, approve agenda 2. Modifications, approve previous meeting summary 3. Forest Plan Amendment Ad Hoc Update	 01 [draft] ACCG Planning Work Group Meeting Agenda 10.23.2024 02 [draft] ACCG Planning Work Group Meeting Summary 09.25.2024
9:10	 UMRWA-USFS MAC Project, Phase 2 Reminder: 30-day public scoping closes Mon. Oct. 28th @ 5pm Herbicides for invasive species management: brief recap on work group discussions last month (material 03) Herbicides for fuelbreak maintenance: a. brief recap on work group discussions last month (material 03) b. update on project team internal discussions based on work group draft alternatives (material 03) Aspen restoration in CSO, Goshawk habitats, IRAs, proposed wilderness Based on today's discussion, do we still want to schedule a special Nov. Planning work group meeting focused on MAC 2 Project? 	O3 [draft] ACCG Planning Work Group Herbicide Recommendations v.09.25.2024
11:40	 ACCG Field Trip Discussion Follow-up Informational: Fuels Treatments within Caldor Fire (material 04-09) these were shared by Marc Young after our Sept. Planning WG meeting 	 04 Caldor 1pger Treatment Ama dor RD v 1.2 05 LastChanceTrestle 06 MiddleCreek 07 RoadRunner 08 SilverSaddleGeneralSherman 09 SlyParkSierraSprings
11:50	 Upcoming General Meeting Topics 11/20/2024: Brian Allen, UCCE, El Dorado, Amador, Calaveras and Tuolumne Counties, Assistant Specialist; Targeted grazing and virtual fencing applications for fuel break maintenance and mixed conifer forest fuels treatments 1/15/2025: Kristen Shive, UC Berkley, Fuels Treatment Effectiveness 2/19/2025: Dr. Scott Stephens, "Mass fire behavior created by extensive tree mortality and high tree density not

Planning Work Group Zoom Meeting Wed. Oct. 23rd, 2024, 9:00 a.m. – 12:00 p.m.

	predicted by operational fire behavior models in the southern Sierra Nevada"
11:55	Action Items & Next Steps
	Review meeting action items
	Next meeting: Nov. TBD via Zoom
	Next Steps
	o UMRWA WCB Aspen Project post-scoping period update
	o MAC Project, Phase 2 Topics
	■ NRV vs. SDI
	Focused analysis in EIS
	Condition-based NEPA
	 Western pond turtle protection measures
	 Management actions that may impact viewshed, rec and
	mitigation measures
	 Hazard tree removal
	LIDAR Modeling (RF)

Ongoing Planning Work Group Action Items

• ACCG Priority Responsibilities:

- o Continue moving forward with landscape-scale planning, while also identifying and securing funding for shovel-ready projects:
 - Continuing to support and engage with UMRWA's Forest Projects Plan Phase 1-2.
 - Engaging with the USFS on their 2022 program of work.
 - Continuing to support large-landscape analyses to help strategically accelerate implementation.
 - Support and assist the USFS find efficient and effective ways to compete for funds. And as part of that, support the USFS
 obtaining increased resources and building workforces for surface, ladder fuels work.
- Support biomass utilization infrastructure development projects.
- o Focus on projects and activities, including activities that increase forest health, and meadow and wetland restoration, that promote water retention on the landscape to prepare for future droughts.
- o Continue to support implementation of ACCG's TEK Shared Vision.
- o Continue to support implementation of ACCG's Pyrosilviculture Shared Vision, including continuing discussions on defining broad plan for implementing pyrosilviculture shared vision. Start with the five steps Greg Suba proposed (in email to the Pyro Ad Hoc group, 10/21/2021):
 - Understand the landscape and subdivide it into strategically derived fire management areas (e.g., PODs, boxes, etc.)
 - Agree on strategy for where, when, and how best to manage for fire within every containment area / box, and between containment areas / boxes.
 - Identify which boxes are in most urgent need of work in order to apply, manage, and/or suppress fire effectively and as safely as possible.
 - Seek and obtain funding for that work.
 - Implement 1st-entry fire and/or thinning followed by fire as planned.
